

## join truth trackers clubs

Truth Trackers was created to give churches tools to purposefully disciple their children. We believe children can and need to learn the basics of the Christian faith. We accomplish this with a systematic approach to Bible verse memory, daily devotions, and Biblical lessons.

Each year the memory books, devotional books, and lesson books cover six doctrines simultaneously.

### Green Books (a year)

- Salvation
- God Created
- The Bible
- Growing Spiritually
- The World
- The Future

### Blue Books (a year)

- God's Nature
- God's Greatness
- Christ's Death
- Prayer
- Trials
- The Holy Spirit

### Red Books (a year)

- My Struggles
- The Law
- Jesus Christ
- God's Goodness
- Solving Problems
- Evil Forces

Truth Trackers also has strategic evangelism, cool awards, fun nightly games, and family activities. Our approach and philosophy of children's discipleship is deliberate and Biblical. Read more about us at TruthTrackers.org.

## life questions

how much does God know?  
psalm 147:5 "great is our  
Lord, and of great power: his  
understanding is infinite."

## bible answers

what is our bible memory  
philosophy?

## a new memory program

Children have life questions. They need to know more than just the right answers, they need to memorize the Bible verses that give those answers. **Truth Trackers provides a memory program which gives Bible answers to life's questions.** Does your child know God's answers to life's questions?

the Truth Trackers memory method is a systematic, responsive memory program.

### Is Jesus Christ God?

John 1:1 "In the beginning was the Word, and the Word was with God, and the Word was God."

## systematic

The program includes core verses that we believe Christians should memorize. These verses are organized into a catechism format and further separated into 18 doctrines.

This systemization allows families and churches to memorize and review the verses over two three-year periods (every three years). Every year Truth Trackers Clubs learns and reviews 6 of those doctrines. The children memorize the life questions and Bible answers, reinforcing the truths of those 6 doctrines through daily devotions and weekly Club lessons. Organizing these doctrines

in this fashion is beneficial because it allows parents and church leaders to know exactly what the children are memorizing.

**Most parents and churches have children memorize a lot of verses without any real organization.**

By the time a child grows up, most parents and churches can only hope their children know the core verses to life's questions. This program allows families and churches to have an organized, purposeful approach to Bible memory. Families and church members now have an organized method that is simply better than random memorization; they can use Truth Trackers to memorize Scripture together!

## responsive

As children grow up and face trials, temptations, and spiritual challenges, they will have life questions. **Why not equip them at a young age to answer those questions straight from the Bible?**

In Truth Trackers, like catechism, the question asked presents the truth we desire the child to learn, but the difference between catechism and our program is the answer a child gives in Truth Trackers is actually given by quoting a verse.

### How powerful is God?

Jeremiah 32:27 "Behold, I am the LORD, the God of all flesh: is there any thing too hard for me?"

This approach elevates the Scripture above any man's answer to life's questions. Children learn God's own words in response to very important questions they will face.

### Why was the Bible written?

John 20:31 "... these are written, that ye might believe that Jesus is the Christ, the Son of God; and that believing ye might have life through his name."

Also, children will no longer say, "May I have the first word?" With the responsive approach, the question is the stimulus for them to say the verse. A parent or leader says the question, and the child quotes the verse he has memorized in answer to that

question.

## memory

The Truth Trackers memory program requires a child to memorize only one verse a week. This small requirement is purposeful. **Our goal is to increase the quality of Scripture memory, not just the quantity.**

However, the children review by repeating the previous week's verses. In other words, their verses are progressively cumulative. **We designed the program this way to facilitate long-term memory.** The best memory program is not one that encourages children to quickly learn, say, and, sadly, forget, but the program that requires repetition for a number of weeks.
